

PANJAB UNIVERSITY CONSTRUCTION OFFICE
HORTICULTURE DIVISION

The University has received Memo no. MOH/SS/18/10391 dated 28.09.2018 from Medical Officer of Health, Municipal Corporation, Chandigarh (enclosed) stating that the University is designated as a Bulk Waste Generator (i.e. generating more than 100 kg waste/day). Accordingly, they have directed us to comply with the provision of the SWM Rules, 2016 and implement segregation of waste at source, segregated storage within premises, facilitate segregated door-to-door collector and processing and treatment of bio-degradable waste within premises.

It is relevant to add here that dumping ground at Dadu Majra will not allow emptying of garbage after 01.01.2019.

Accordingly, the preparations for segregation and decomposition of waste have to be done on an urgent basis.

Considering the quantity of waste generated from Panjab University, the Horticulture Division in itself cannot segregate and dispose off the entire waste.

The Registrar has, therefore, directed all the Departments, Centers, Institutes & Hostels of Panjab University to make arrangements for segregation of waste at their own level at their earliest.

(Er. Anil Thakur)
Divisional Engineer (H)
P.U. Construction Office

Issued to all the Departments, Centers, Institutes & Hostels of Panjab University
